Thompson Falls Dam
Relicensing Meeting and Site Tour

11 E PARK ST
BUTTE MT 59701-1711

NorthWestern Energy will be hosting a meeting on **Thursday, May 5, 2022** to present the results of the first season relicensing studies. The studies are those approved by the Federal Energy Regulatory Commission and include Operational, Fisheries, Recreation, Cultural, and Water Quality studies.

The meeting will be held at NorthWestern's Missoula, MT Office, **1801 S. Russell St from 9:00-2:00 with specific times for each study**. A detailed schedule is available: <https://northwesternenergy.com/clean-energy/hydropower/thompson-falls-hydro-project/relicensing-documents>. A virtual option is also being offered via Zoom. Please check the above website for log in information.

NorthWestern will be providing a tour of the Thompson Falls Project on Friday, May 6, 2022. Please gather at the Gallatin Street Bridge and parking lot at 10:00 am if you'd like to attend. All agency personnel and parties interested in the relicensing of Thompson Falls Hydroelectric Project, are invited to attend the meeting and the site tour.
