

OUR WALK-IN OFFICES ARE NOW OPEN

Our walk-in offices are once again open for customers. We closed our walk-in offices due to COVID and kept them closed because our walk-in customer service centers are located in buildings where our line crews, supply teams and other mission-critical workers are based.

To find a list of office locations and hours, see the back of this insert or visit [NorthWesternEnergy.com/locations](https://www.northwesternenergy.com/locations)
